GENERAL

This is an example to be used as instruction for the Landscape Architect creating project specific erosion control sheets. For information on table line and text formatting not shown on this sheet see the Plans Preparation Manual Section 2.19 "Summary of Quantities."

EROSION CONTROL QUANTITY TABLE: This table shows the specific bid items and associated quantities for each erosion control type and items not associated with a type.

SHEETS: Specific locations are not necessary in this table since the locations and associated quantities have been shown on the Erosion Control Plan (EC) sheets.

DESCRIPTION: List each Erosion Control Type and any items not associated with a Type.

BID ITEM DESCRIPTION: Identify all applicable bid items for all the erosion control types listed and items not associated with a type. The bid item description and units of measurement must match the BEES. Within each bid item column enter quantities adjacent to the applicable erosion control type or item. At the bottom of the bid item column provide the total for the bid item.
